'TIS LOVE

'Tis love that hold the planets
In their orbits 'round the Sun;
'Tis love evolves the galaxy
Toward grandeur yet to come.

'Tis love from out of Nature's Heart
By which our Earth was fashioned—
A stage where man with high intent
May move with tread impassioned.

'Tis love controls the elements
Of water, air, and fire—
Directs them to constructively
Fulfill our heart's desire.

'Tis love that nourishes the seed
Of grass, and flower, and tree,
And coaxes each to manifest
Full-blown for you and me.

'Tis loves that holds inviolate
The harmony of Heaven—
A Home to which we may return
With every sin forgiven.

'Tis love of Beings greater than
This human mind may know
Which draws us toward this God Estate
Left by us long ago!

What think you sets our goals beyond
Accomplishments above—
And spurs 'til EACH BECOMES A SUN—
'TIS LOVE! 'TIS LOVE! 'TIS LOVE!

OUR BELOVED CHAMUEL

BELOVED CHAMUEL

(Archangel of Love and Adoration)

The Beloved Archangel Chamuel is, as yet, little known to the peoples of Earth. He is the Great Archangel of Love, Adoration and Devotion to God and the goodness of God as expressed through mankind. He, together with His Divine Complement, Charity, are dedicated and consecrated to developing in the outer consciousness of mankind a true sense of gratitude and adoration toward their Source, God, and a sense of encouragement toward the endeavors of their fellowman to unfold the Divine Potential that lies buried within every heart.

As all the Angelic Host, particularly the Archangels, are not cognizant of form but rather of essence, color, sound and perfume, whenever and wherever They see the motive within a human heart endeavoring to express the goodness of God, They nourish this motive and desire by Their Presence and radiation, until the one so seeking to externalize a particular benefaction for the race can so do.

The Archangel Chamuel and Beloved Charity serve on the Third Ray, which is expressed in a lovely pink radiation that actually envelops those desiring to lift mankind out of distress of every kind and into greater freedom, personal, racial, planetary and—finally—universal.

At Inner Levels, Lord Chamuel and Beloved Charity have a glorious Temple, builded on the circular design so loved by the Angelic Host, domed with gold and encrusted with pink rubies. In this Temple the Flame of Adoration to God and His Messengers burns brightly and this Flame is intelligently directed by Lord Chamuel to all unascended beings to encourage the development of their own particular Divine Plan. Such Flame is carried by the Angelic Host of Lord Chamuel's Legions into the astral plane that surrounds the Earth (in which some people who have passed through the veil of so-called death temporarily dwell.) The Angels of His Legion know that within the heart of all God's children is a focus of God Himself, seeking expression through the soul. As They stand, in Their glorious robes of pink, in the auras of such people, They breathe Their love into the God-spark until It begins to expand. This is as mechanical as the generation of physical fire through the use of a bellows upon a smoldering fire in the fire-place. These blessed people, not knowing of their Benefactors, are finally stirred by the Love of Lord Chamuel, Blessed Charity and Their Legions of Love, until they desire—through free will—to expand their own Divine Plan and serve the God that made them. Then these good people *ask* for assistance from God and His Divine Messengers to prepare themselves to serve God (while in the Inner Levels) and to prepare to serve Him when they come into physical embodiment again.

Because the Angelic Host are so *selfless*, often those whom They serve *do not even know of their Benefactors' presence* and cannot explain, even to themselves, the awakening of the desire to do God's Will. The Angelic Host *are not concerned* with the recognition of Their presence and service but only with the actual works accomplished in awakening the soul to a desire to expand the borders of God's Kingdom. Thus, many a sincere individual who receives a "call to do God's Will" is completely oblivious of the stimulation of that desire by the Angels of Love.

This is equally true of embodied individuals living on the Earth today. Mankind enmasse is not capable of knowing the design of God for themselves or for others. They have fallen under the grievous error of "judging according to human appearances" and are neither patient nor loving enough to cognize the motive behind actions that sometimes are expressed clumsily by a fellowman. The Angels of Love know the *motive* behind all endeavors and, wherever that motive is sincere, untinged by human desire for personal gain and aggrandizement, They stand selflessly and lovingly in the aura of such peoples helping them always to fulfill their inspirations, dreams, visions, and ideas. They literally hold such peoples in Their Arms of Love, sustaining them through hours of trial and seeming failure, until the individuals are successful and another expression of God's Holy Will is made available for the benefaction of the race.

Lord Chamuel and Beloved Charity care not for "human appearances" but care exceedingly for the budding Christ Light that seeks to burst the shell of "human appearances" and add to the Light of the World. Every Saint, every great patriot, scholar, humanitarian, architect, scientist, missionary and spiritual teacher has been and is sustained by the Pink Ray of Lord Chamuel's Love.

Then, the soul, cognizing a Power greater than itself, begins to express gratitude to its Source (God), His Divine Messengers, and—finally, to its fellowman. This gratitude is a POWER. It cannot be over-emphasized in man's dealing with his fellowman.

A sincere feeling of gratitude, silently sent forth, or audibly expressed when conditions allow, reaps a harvest of greater endeavors upon the part of the recipient of the loving feeling of gratitude expressed. Thus, according to human experience, gratitude is a "magic key" which can be used to advantage in developing the God potential of every man. Let us not confuse flattery (which is insincere) with honest gratitude for endeavors made to lighten the burden of individuals, families, nations and the planet. Gratitude is a virtue of God, expressed through Lord Chamuel and Beloved Charity and Their Legions of Angels of Love. When the soul truly learns how to *feel* gratitude toward those who serve him, even in mundane ways, inevitably that gratitude begins to rise to the Source (God) which has given him his very life. Gratitude is truly the open door to greater benefactions from God, His Messengers and mankind enmasse.

All virtues have color and sound. True gratitude emanating from the heart of any individual is pink. When this gratitude is poured forth to other members of the human race it is a soft, delicate, shell pink. When gratitude is poured forth to God and the Divine Beings Who serve Him in conscious adoration and praise it is a deeper pink and literally opens the doors to Heaven Itself. Back on the ray of gratitude and praise to Deity comes more and more of that beautiful pink Essence into the world of the one so engaged in blessing God. Also more and more of the Angels of the Pink Ray gather around such a one to sustain him in his service to life. Be assured that this pink Essence is a reality, a substance, a living vital power to stimulate, nourish and expand the service of the grateful one.

When gratitude is issued forth to a human being the returning current energy is, of course, not so great.

The Pink Flame and Ray are naturally activities that multiply and expand the good in man, whether it is in his financial status, his physical well being, his mental stability, or his emotional balance. Many people, afflicted with the various distresses of mind and body, find it difficult to generate a true feeling of gratitude to God, His Messengers and their fellowmen. Here, they can be assisted greatly by Those Who are literally the embodiment of the FEELING OF GRATITUDE AND PRAISE TO GOD. To such peoples, it is recommended that they call sincerely to Their God to send them Angels of Gratitude to help them to feel gratitude to life, generally. When they have felt the radiation and feeling of gratitude to life transfused into their worlds by the Angels they are then able to generate a little gratitude, at

first, toward impersonal activities . . . like the Sun that lights their way each day, the water that makes ablutions possible, the fresh air they breathe, the harvest of nature which is the actual sustenance of their physical bodies. Gradually, they begin to enjoy happiness in the feeling of gratitude and it is easier for them to be grateful for "small favors" from their fellowman. They learn to see beyond "human appearances" into the motive in the hearts of all peoples, who seek to do good. Then do the Angels of Love rejoice indeed. The peoples belonging to Earth's evolutions require so much training in the generation of true, impersonal Divine Love. When the individuals are caught in the meshes of "human appearances", it is easy to become bitter, cynical, and ungrateful. These qualities of *feeling* have a very unpleasant color and a dissonant sound. As each individual lives within the energy he emits, the more of such discordant feeling he generates the more unhappy he becomes. In like manner, the more constructive feelings he generates, the happier he becomes. Therefore, even for personal reasons, it is well to learn to generate an aura of a happy nature for that is the "home" in which the soul must dwell until the individual, himself, changes that "home" through self conscious endeavor.

Victor Herbert expressed the truth, "It is love and love alone the world is seeking!" This love can be generated by each child of God and then sent forth to his fellowmen. For this purpose and service, do the Angels of Love come. Have you learned the Law of gratitude, so that your own worlds are filled with the soft, pink essence of comfort and peace, or are you still goaded on by uncharitable and discordant feelings? If you really desire to learn how to make your "home" (aura) more comfortable, ask Lord Chamuel, Beloved Charity and the Angels of Love to help you!

Gratitude is sometimes difficult to express toward one who has seemingly harmed or harrassed you. Then it is recommended by Lord Chamuel that you give your consideration an impersonal activity of life which has benefited you (taking your attention from the person who is temporarily distasteful to you) until such a time as you have developed a feeling of gratitude toward life, in general. Then, it is comparatively easy to direct a feeling of gratitude toward the person or activity which you formerly found unpleasant, and you will be richly rewarded in the change of attitude in the person or activity that was previously distasteful to you.

Gratitude is the science of *loving life free from distress.* Beloved Master Jesus used this science and developed such a momen-

tum of love that neither sickness, limitation, nor even the appearance of death itself, caused Him to change His aura and feeling of gratitude to His Father and to the Divine Pattern in the hearts of all mankind. Thus, life (which is intelligent) responded to His LOVE and externalized health, opulence, and life eternal.

Beloved Presence of God and Beloved Archangel Chamuel! Teach me now how to Love as You do! Help me to generate the feeling of gratitude towards You, the Angelic Host, the Nature Kingdom and my fellowman. Help me to make the home of my soul a happy, grateful, loving harmonious place in which to abide. Then, Beloved Father and Angels of Love, allow me to join You in loving all life free as the Master Jesus did!

"Go give to the hungry sweet Charity's Bread
For giving is living," the Angel said!
"But must I be giving, again and again?"
The weary and wondering question came.
"Oh, no" said the Angel,
Piercing me through.
"*Just give 'till the Master*
Stops giving to you!"

HEALING THROUGH LOVE

Pure Divine Love is the greatest power in the Universe. It is the Love of God for man which has allowed every man, no matter what sins he has committed, to return, like the Prodigal Son, to his Heavenly Father and find forgiveness for his transgressions and happiness and healing through being welcomed without reservation into the Kingdom of Love and Harmony.

"Perfect love casteth out fear" says the Bible. Mankind suffering from innumerable diseases of mind, body and soul, are fearful because they do not *love* the God Who made them enough to allow Him to heal them through merciful forgiveness and restoration to their Divine Estate.

It is necessary, therefore, for all who require healing to truly accept the Presence of the Heavenly Father as a Father of Love, Mercy and Forgiveness, rather than a God of Wrath and Judgment. When the individual can and does accept the concept of God as a Being of Love, he knows that there is, through God, a way and a means by which permanent healing of mind, body, soul, and affairs can be effected.

Love and trust in God precedes all permanent healings. Acceptance of His Power of restoration to perfect health is essential to such healing. The capacity to forgive oneself and one's fellowman for transgressions can be developed by the outer consciousness. Then God's Healing Power can and does flow through the individual who by self-conscious endeavor prepares the conditions of mind, soul, body and world to receive the essence of this Healing Power.

Jesus Himself said, "I of Myself can do nothing, it is the Father within Who doeth the works". Realizing that the only Healing Power in the Universe (which is permanent) is the Father-God Who created man in His own Image and Likeness, helps the individual to gratefully accept the channels through which God works (whether these channels are the dedicated lifestreams in the medical profession or the spiritually awakened individuals who invoke this Healing Power for the blessing of the race). Remember *always* that the Healing Power Itself comes from God through His chosen channel.

Even as many people enjoy the waters of the river but are not cognizant of its source, so many people enjoy the alleviation of their distresses but are not aware of the Source through which this Healing Power flows. "Praise God from Whom *ALL* Blessings Flow!" is sung by great and small congregations daily. Let us truly praise Him for every blessing as well as the channel through which He has chosen to pour the blessing into our lives and affairs. It is as incongruous for man to reject such channels (fellowmen) as it would be for people to reject the waters that flow in the rivers and the river beds that channel the purifying quality of the water element.

The opposite of Love is hate. Let us remember that the generation of love in the feeling world toward God and whatever channel He chooses through which to pour His blessings upon us is the WAY BACK HOME.

Even love of so-called inanimate objects, such as furniture, automobiles and the necessities and luxuries of life, raises the vi-

bratory action of such objects because within all form is intelligence that is grateful to be loved. How much more does a conscious individual respond to a feeling of pure Divine Love poured out toward him. to help him to externalize the perfection that he desires. Even greater than man's response to love is the Father's response and gratitude to the feeling of Love poured out to Him and to His Messengers, Divine and human.

Hate creates a shell of misqualified energy around the individual which repels assistance—human or Divine. Love creates a magnet around the individual which attracts assistance—human and Divine. This is scientific law.

There is no condition so hopeless that the Love of God cannot change it. Jesus, embodying the Love of God, expressed and manifested the power of Divine Love in restoring sight to the blind, life to the so-called dead. Everyone has the opportunity to love life free. Jesus again admonished His disciples, saying in essence, that there is no particular merit in loving those who please us. but the merit lies in loving those who despitefully use us.Abraham Lincoln said that the best remedy he knew was to make every enemey his friend—through love.

This issue of Hope is dedicated to the Beloved Archangel, Chamuel and His Archii Charity, Who are two of the Divine Messengers of God and Who are willing to help individuals to learn to love God, the Angelic Host, their fellowman and all imprisoned life. *This love is not sympathy*, which is merely agreement with imperfection, and a negative quality which adds to the distress already apparent. *Love is Divine Compassion*, which is a positive quality which negates the distress through the invocation of the power of God to help the one in such distress. Kwan Yin, the Goddess of Mercy, in explaining the difference between sympathy and compassion used a homely but powerful illustration. She said: "The sympathetic person upon seeing an accident faints but the truly compassionate person assists the one in distress immediately."

If there is any feeling of distress, hatred or even mild dislike in your world, ask Beloved Charity to help you to feel Her Charity (LOVE) toward the person, place, condition or thing which has distressed you. Ask Beloved Jesus to help you feel His Charity (LOVE) which enabled Him, upon the cross, to pray, "Father forgive them, for they know not what they do". Believe that these Beings will assist you. Await Their feelings, which enter into your souls as the Sun enters into your homes through the window panes. "Ask and ye shall receive; Knock and it shall be opened unto you."

Beloved Heavenly Father! Teach me how to *Love* YOU so that I may no longer fear the distresses that appall me. Teach me how to Love Your chosen Messengers and to accept Their Reality and Presence in the Universe. Teach me how to Love my fellowman as You love them . . . fulfilling Jesus' admonition, "Love ye one another, even as I have loved you!"

Beloved Lord Chamuel and Blessed Charity! Help me to dissolve all hatred, resentment, rebellion and mild dislike within my own feeling world toward those who have distressed me. Help me to replace those feelings with Your feeling of sincere Love for all life!

Send the Angels of Love into my home, my business, my world and my affairs. Let Their Fair Presence make my world a place of exceeding grace. Thank You, dear God, and Your Heavenly Messengers for such assistance. Amen.

MAGNETIZING OPULENCE

Love is the keynote of the Universe, and the keynote of every lifestream. When you consciously attune yourself to the Presence of Love and quicken the action of your inner bodies until they become conductors for the Flaming Substance of Divine Love, you will find the very substance of Earth drawn toward you for a blessing.

Divine Love is a cohesive power which draws and holds to the individual that upon which his attention rests. However. Divine Love is not grasping, but giving. If an individual has a gift, or a talent, or supply and uses it to expand happiness and beauty for life, the benefit returns manifold to the giver. If, however, he selfishly grasps the gift, and, through a process of inversion, seeks to hold it to himself for personal gain or pleasure, he is temporarily deprived of the use of that gift or talent or supply. The measure of the individual's use of talent, money, power, and opportunity lies *in the use to which he puts them.* If he uses his gifts to expand blessings to all mankind, prosperity will come as a result.

Mankind's energy flows into whatever his attention rests upon, energizing, amplifying, and increasing the object of his interest. This is the clue to the release and relief from limitations of every kind. If one's attention is directed toward opulence, health, beauty, and peace, such will come to him for his love will draw them to him.

Limitation is man's creation; abundance is God's Creation. Thoughts *do* become things. If the motive is unselfish, if it will be

of benefit to mankind, proceed to externalize your thoughts. Fill them with your love. You will be amazed at the abundance of every good thing that will come into your life.

The way to manifest abundance is to hold it constantly in the mind—to frequently say, "All that my Father hath is mine". Within the light that flows into the physical heart from the Heart of Hearts (the Individualized "I AM" Presence), is anything and everything one can require—for external comfort as well as for internal redemption and illumination. Each electron which makes up the rapidly flowing stream of precipitated life contains within itself the intelligence, all the magnetic power required to sustain the body's life and our spiritual nourishment as well.

The great fundamental principle of the law of opulence is our inseparable connection with this Creative Energy of the Universe, and our God-given privilege of magnetizing into our hands and use—through love—the abundance of every good thing. When we come into the full realization of this connection and power of magnetization, we shall never want again.

As long as we limit ourselves by thinking that we are separate, insignificant, unrelated atoms in the Universe—that the great supply, the Creative Energy is outside of us, we shall never come into that abundant supply which is our birthright.

We were made for happiness—to express joy and gladness—to be prosperous. We must have unconditional faith in the law of infinite supply—then open the floodgates of our hearts to receive it.

All our limitations are in our own minds. Only because of our lack of magnetic love, does the River of Plenty flow past our doors, and we starve on the very shores of the stream which carries infinite supply. The opulent life stands ready to take us into its completeness. When we feel a sense of unity, an at-one-ness with the Creator, with all life, we rest in the very lap of abundance.

Haven't we all met with persons who pour out from their very selves a *feeling* of gratitude, of appreciation for the opportunity of just *being*—who, have such superb ideas of life and the grandeur of its meaning, that it makes us feel rich just to converse with them? The most ordinary duties performed by them are lifted into dignity and splendor. Things come to them without worry or anxiety. They love everybody and everybody loves them. Their very nature is like the sunshine; there is no lack in their lives because they believe in and rely upon the Infinite Source of supply. They are opulent in the truest sense of the word.

If we could center our thoughts along the lines of prosperity, of abundance, knowing that we are children of the one God, and that health, happiness, and success are our birthright, and if we have done our best to realize our ideals, then our surroundings, our conditions, will out-picture our thoughts, our concentrations, our mental and feeling worlds.

It is a great thing to learn to live in the All-Life, and by radiating gratitude, magnetize life in all its fullness. "Charity giveth itself rich".

All the luxuries of life we have housed within our own lifestreams. As we open the door of our being, and let the gifts of our life flow out to bless all life, because we have loved it, we shall find a full measure, heaped up and returning to us. It was through adoration and love to the Source of all life that the Beloved Jesus multiplied the loaves and fishes. The giving of thanks for the substance at hand can amplify and increase that substance indefinitely.

There is no limit to the response within life to love poured forth consciously, for, love is life itself, and the cells within that which give you love, double, triple, and increase as you pour out your love and gratitude toward them.

The feeling of adoration directed to that which is good is a practical magnet within your hands to draw to you every good and perfect thing *if you will use it*. Everything increases through attention. The more lifestreams that have their attention upon God, the greater the magnet, and the greater the magnet, the more souls come into Divine alignment.

As more men come into Divine alignment, the more will come into the full realization that God is their never failing Supply, the Source of Abundance, the great Fountain-Head of all that is good and desirable, and that he—being His offspring—*must* be a part—an indestructible part—of this Supply. Then man will never know poverty or lack of any kind.

The sons and daughters of God were created for glorious, sublime lives, and the time will come when all men will be kings, and all women queens. When man's Higher Self shall have triumphed over his lesser self, there will no longer be poverty, slavery, or vice. The time will come when the most miserable creature that walks on the Earth today, will be higher than the highest now on Earth. He will then out-picture his true Sonship—and clothed in the Garments of the Father—he will magnetize and radiate Opulence in every department of his life.

"Be not anxious for your life, what ye shall eat, or what ye shall drink; nor for your body, what ye shall put on. Is not life

more than the food, and the body more than raiment? Behold the birds of the heaven, that they sow not, neither do they reap, nor gather into barns; and your heavenly Father feedeth them. Are ye not of much more value than they? And why are ye anxious concerning raiment? Consider the lilies of the field, how they grow; they toil not, neither do they spin; yet I say unto you that Solomon in all his glory was not arrayed like one of these." Jesus. (Matthew 6.25-30).

LEARNING LOVE'S WAY

Little Nada was only four. She was a precocious child and came of a family of affluence. She was the youngest and the smallest. Although she was very unusual of perception and understanding, she was timid and retiring and had a sense of "not belonging" to the illustrious and wealthy family of which she was a member.

Often she would sit in the garden alone, admiring the beauty and dignity of her sisters—who were tall,stately, and blonde, and had an air of assurance and poise. They were talented, too, in music and art. Their father, having a desire to enhance his position with the great men and women of Asia and the Near East, thought to strengthen his alliance with them through the daughters of his family. Therefore, nothing was left undone to develop their natural proclivities toward singing and painting. In little Nada there seemed to be no such genius, so she drew deeper and deeper within herself.

But one night as she lay in her small bed, which was close to the window, she had a strange experience. She was looking out over the formal gardens in a meditative mood, when a lovely Lady appeared on the balcony, dressed in beautiful pink. Her long hair was plaited with one plait hanging over Her shoulder. She smiled so sweetly to Nada. It was the first time anyone had taken particular notice of the little girl as an individual. It all seemed like a dream—yet it was all so very real. There was something magnificent—unusual about the strange Visitor. The tenderness, the sweetness in Her smile, in those great violet eyes indicated that She was not a creature of this Earth. The love which She radiated was the very nourishment the child's heart required. Yet the lovely Lady had not spoken a word.

Next morning, when Nada awoke, she thought it must have

been a dream—a fantasy of the mind and imagination. Yet when she would close her eyes, she could feel the closeness, the warmth, the reality of the beautiful Personage.

Day after day, Nada sat among the flowers by the pool and thought about her Love-Lady. Now she had something which she could share with others—an experience which she could talk about. She wanted to open her lips and speak—but something inside her always constrained her.

For almost a year, this beautiful Being came—continuing to pour a soft Radiation of comfort into her world. She grew to know Her and love Her and to await Her lovely Presence. She became cognizant of a certain music and fragrance like that of a rose which always accompanied Her. At times, when the experiences of the day became difficult for Nada, she would catch the fragrance which interpenetrated the atmosphere, or would hear beautiful music and she would know (although unseen) that her Dream-Lady was near.

Then one day, She spoke for the first time. "Nada," She said, "I am going to help you develop a certain gift, commensurate with the gifts of your sisters—something which you, too, might offer to your Heavenly Father, and to all His children. That gift is the ability to radiate pure, impersonal Divine Love."

To the small child, those words did not mean too much, but that very night, she found herself walking hand in hand with her beautiful Friend. They stopped by the lily pond. With the shades of night-fall, the flowers had folded their petals. But as the love and appreciation of beauty flowed from the Heart of the great One toward a certain lily, it (contrary to its natural propensity which was to open only in sunlight) began to develop. The flower expanded, the petals became refined, and in its pure whiteness, it expressed all of a lily's perfection. As a beam of light extended from Her heart to that of the flower, it emitted a perfume, the like of which had never scented the atmosphere of Earth.

"Now, you try," She said to Nada, "to do what I have done." But the child was not yet able to generate enough love toward a lily to cause it to even slightly unfold.

"Try again tomorrow morning," said the Instructor, "when the first beams of the sun kiss the lilypods. Use your love to amplify the sunlight. Then notice how much sweeter in scent and more beautiful in color the lilies will become because you have poured out your love and appreciation to them." And with that instruction to Her small pupil Her Presence vanished.

So, day after day, Nada, worked with the rhythm of Nature.

And the birds sang more joyously, and the flowers gave forth a sweeter fragrance, in response to the love and appreciation which Nada poured forth from her heart toward them.

The next time the beautiful Lady came, She said, "You have learned to work well with the already established rhythm of Nature—to amplify the sweetness of the song of the bird and perfume of the flower. Now I want to give you opportunity to learn to call forth the same activity without the assistance of the Nature Kingdom. When the nightingale sleeps by day, you must pour forth your love to his heart and make that song come forth in the noon-day sun. When the flowers slumber at the close of the day, then awaken them by love."

Several years of such practicing of directing the feeling of love upon the Nature Kingdom went by and Nada arrived at the age of ten.

"You have done well," said her Teacher upon arriving again. "Now you can begin your service in earnest. All of your family have talent, and, with that talent, a certain pride of accomplishment. It shall be your opportunity to nourish their gift by love, until it shall blossom forth in exquisite rendition of music, art, poetry, or whatever their particular ability may be. In the night hours, while their bodies sleep, you are to stand by each one's bedside and pour forth the love of your heart upon each one's gift. Through the nourishment of such radiation their talents will flower. But AS YOUR DISCIPLINE they must NEVER KNOW THAT IT IS YOUR LOVE THAT MAKES THEM THE GENIUS OF THE DAY."

So constantly for many years, Nada rendered this service in secret. The beauty and perfection of her sisters' voices—the exquisite poetry and prose that they wrote, the paintings and art they accomplished became famous over the then-known world. All this was the result of the love of the "selfless one", for no one outside the immediate family ever knew there was a "youngest daughter", under the supervision of the great Cosmic Being Charity, who had nourished the good that was theirs in order that the fruit, the blossoms, the perfume of talent developed might become the blessings for all men.

The sisters married well, and Nada was left at home alone. Then it was that her Teacher, the Divine Being, Charity, withdrew Her Heart's Flame, and left Her pupil standing within her own soul's light. "It is necessary," She said to Nada, "that I go away, but you are to have the association of another Visitor." It was not easy for Nada, who had been buoyed up by the inspiration of her great Teacher, to now stand upon the strength of her own development.

After a long period of waiting, the new Visitor came. He told her of the necessity of developing from within the lifestream, every talent or gift which it had vowed to God to give to life before it returned "Home". This is required of every individual who is to attain the Ascension, as did the Master, Jesus. "Are you willing to come to my Retreat," asked the Visitor. "and assist members there by loving their gifts and talents free?"

Nada promised she would. She entered the 'Retreat' designated by the Master—there to abide with others who found it difficult to get along with each other. They were in a process of training to develop mastery over appearances and seeming disturbances either from within or from without themselves. Nada moved from one group to another, always endeavoring through the pressure of love to melt away pain, or hurt, or disappointment that would arise from disagreement among them—to draw out from within them—the gifts and powers and talents of the lifestream. She thereby, learned, herself, to be impervious to the shadows—those manifestations—that were not true expressions of the God-self within the heart.

After many years of service in the Retreat of the Master, Nada so raised her consciousness above the negative qualities of mankind that she became an Ascended Being. She dwells in Heaven's (Harmony's) Realm with the Master, Jesus, and Others, Who, too, have made the Ascension. She continues to pour Her Radiation of pure Divine Love upon all mankind. This Radiation is a Magnet which draws from the heart of each human being the latent gifts and talents buried deep within the self. Thus does the human race outpicture the Divine Plan for which it was brought into being.

ALL ROADS LEAD HOME

If we analyze and contemplate that oft repeated statement—"All roads lead to Rome", we will find the inner meaning—All spiritual roads lead to Home (Heaven)!

Yes, all spiritual roads DO lead Home, be they metaphysical or orthodox. We have but to find the mystic thread of Truth woven so delicately through the specific teaching of any Movement or

Church dedicated to shepherding mankind to its Source—God, the Father, Creator of ALL that is.

Inherent in man is the feeling of Divinity—that Spark of Life which is the Image of the Father in embryo—more developed in some by reason of their attention upon God.

Truly it has been proven that Love is a magnet—a cohesive power—the central core of being. Believing the aphorisms, "God is Love" and "like attracts like", we can INVITE the active quality of Peace, or any other God virtue, to be the essence in the "loving cup" of our consciousness.

The Grail through the ages has been the symbol of invoking the Christ Presence. Within that Grail abides Man's Divinity. Is it not better to enter that Inner Sanctum, bringing the gift of Peace and, through that entrance, consciously build a natural radiation of Peace, rather than abiding upon the periphery of life in the lower consciousness experiencing inharmony and distress? This is possible of attainment through *feeling* and the conscious desire to do God's Will and not through human will with all its vacillating tendencies.

We may go with our Cup to whatever fount we choose; we may drink of the muddy waters of human effluvia, or we may through conscious endeavor sip the nectar of the Gods. If we fill our consciousness with this sweet Essence of Peace, there will Peace abide, and as we dispense this Intrinsic Quality of God-good, it amplifies rather than depletes itself. Thus we build a momentum in our worlds of any God Substance we choose—in this case, Peace.

How does this momentum grow? All of us understand what is meant by a "merger" in outer world parlance. It is more important that we understand the meaning of a *spiritual merger*, for standing ever ready are Those Who are the Fullness of Peace—the Cosmic Founts upon which we may draw at any moment. If we but send forth a heart desire for Peace for ourselves—better still, for all the evolutions belonging to and serving upon this Planet Earth, INSTANTLY the ever-listening Beings and Angels Who are the fulfillment of Peace answer that summons. And with joy in Their Hearts They expand Their light by filling the requirements of the prayer and pouring into our upraised chalices the sublime feeling of Peace.

An important thing to bear in mind is the fact that if we order a specific quantity of any merchandise from the store, we receive the amount for which we are willing to pay. Paralleling the outer action, the Spiritual Law is exact to the minutest detail. "As Above so below". Thus if we order by invocation, through heart feeling, a small amount of Peace, so shall It be given unto us.

Through sincerity of purpose, why not place a large order for Peace and *permit* Those Who have an ever-ready supply of that Quality to give It to us freely, and, as Beloved Jesus did, "be about our Father's business"! Thus we assist in raising not only our own but the chalices of all peoples' consciousnesses so that they are also the recipients of Peace. In this way we fulfill the pattern and plan for which we were created.

Remember, as the pupil must learn through the examples given by his teacher, so must we learn through Those Who have already achieved permanent Peace.

Many are the distractions and pitfalls along life's path IF, through free will, we choose to travel the sub-way, but God in His Almighty Love and Compassion has detailed a "Listening Angel"—an Angel of Ministration—Who is ever on the alert for a summons from His 'charge' (individual), no matter how feeble in the beginning, to give us of God's Virtues when invoked.

As the pupil progresses when his lessons are completed, so do we move forward spiritually as we apply the Spiritual Law. One of the great Masters has said, "Until you are the outpicturing of the Law, you neither know nor understand it!"

Remember, Peace is in God's heart and in the hearts of all of His Divine Messengers. This Peace is available to you and your loved ones, your nation, and the very planet on which you stand. Therefore, while the peoples of Earth cry for Peace, it is your *opportunity* to raise the chalice of your own consciousness "on High" and, experience the Peace that flows to you, then widen your service until all the Earth and Its peoples have the joy of living in a Kingdom of Peace.

THERE IS NO DEATH

John, the Beloved, says in His Gospel that if all the words and works of the Master Jesus were recorded that the world would not be large enough to hold them.

Among these words of Jesus we find, "The Kingdom of God is at hand", "The Kingdom of Heaven is within you", and, "If these things were not true, I would not have told you."

The inspired John says of the New Golden Age into which

we are already entering (regardless of the temporary appearances of discord and distress of the world today): "And God shall wipe away all tears from their eyes and there shall be no more death, neither sorrow nor crying, neither shall there be any pain, for the former things are passed away." (Rev. 21:4.)

This state of happiness will come when individuals have taken literally the words of Jesus, and, entering the Secret Place of the Most High within their own hearts where dwells the living Christ, find the peace and harmony which is the manifest expression of the Kingdom of Heaven on Earth.

Consciousness is elastic. Every individual when concentrating upon a minute detail has experienced the contraction of his own consciousness, and the expansion of his consciousness when he dwells upon world affairs.

Consciousness is always subject to the free will of the individual. When a person concentrates upon discordant experiences, he magnetizes these experiences, allowing them to enter into his consciousness through the faculties of the senses. When a person concentrates upon things of a spiritual nature, he allows the spiritual energies of the Higher Realms to vitalize, raise, and purify his individual consciousness thus makng it a fit grail for the Christ Presence. As this Christ Presence is acknowledged, felt, and cognized in humility by the outer self, It begins to act through the consciousness of the individual. Even Jesus, Himself, said, "I, of Myself, can do nothing. It is the Father within Me that doeth the Works."

After purposeful life upon this Earth, each soul is drawn mercifully through the veil which men call 'death", for a time of rest, peace, and blessings in the Court of the Heavenly Father.

Many of these ambassadors, filled with zeal and enthusiasm, are not able to express the fullness of God's Will on Earth in one embodiment. These are kindly received in the Heavenly Realms and given instruction to help them when they re-embody. Thus there is no such thing as permanent failure and it should be very encouraging to every man to know that in the eternal scheme of things one day the promise of Jesus, "He that believeth on Me, the works that I do shall he do also; and greater works than these shall he do", will be fulfilled through all the human race. The process of learning WHERE THE SOURCE OF ALL blessings lies (namely, the Christ in the heart) requires patience, trust, perseverance, and faith.

God's word and will are more powerful than all the arrogance of man and one day when man understands who and what

he is (in Christ) all those appearances of discord will be transmuted and Angels will again walk and talk with men, as it was in the beginning, before the fall of man.

The destiny of man is to expand the borders of God's Kingdom on Earth and it was for that purpose that he took incarnation. Ah, but you say, "How can you prove all these things?"

First by faith in the words of the Beloved Jesus; secondly, by developing spiritual faculties that the man of the world does not possess—until you cognize the power of the Christ within. For instance, the Scribes and the Pharisees who were the most learned people of their day rejected both the philosophy and the Presence of Jesus in their midst. A person who has developed these spiritual faculties, intuitions, and discernments cannot be swayed, any more than the diamond expert can be duped by a gem of inferior quality.

There is a glorious future for mankind even on this Earth for God has given His word which is unchanging and this future will manifest when individual man learns the truth that makes him free.

How is this possible of accomplishment?—By entering the secret chamber in your heart (the Secret Place of the Most High referred to by David in the 91st Psalm) and closing the door against the storms and strifes of the outer world. After you have learned that for yourself you can also do it for your brother, as Jesus did for the frightened disciples in the midst of the storm on the sea of Galilee. Let us have faith in the words of Jesus Who said, "Fear not, 'I AM' with you always even unto the end of the world." No matter how the storms blow (distressing conditions) know that in Christ you have the power to say, "Peace be still!"

Remember the words of the scriptures, "Come let us reason together?" Man is supposed to use his God-given reasoning power. This is a subject that was exemplified by Jesus in the parable of the talents.

The idea that people hold of Heaven as an ephemeral place of rest and idleness and folded hands is not reasonable, for the Sons of God are busy in His Kingdom both in Heaven and on Earth. The Earth is a vast schoolroom and everything from the elemental to man is in a state of evolution. After we have fulfilled the mission for which we came, the Father in His mercy calls us Home to renew our energies before we are sent forth again to learn the lesson for which He created us in the beginning.

Many people say, "I did not ask to be brought here." This is an erroneous statement because we, through free will endowed upon us by the Father, applied for embodiment upon the Earth,

not only once but time and time again.

Death is actually a mythical concept which, like Frankenstein's monster, has turned around and terrified his creator. Grace bestowed of the Father giving man an opportunity to redeem himself and the world in which he abides is another expression of God's Mercy and Patience. Jesus said, "And I, if I be lifted up . . . will draw all men unto Me." Likewise every man who becomes enlightened through the acceptance of the truth of life lifts the entire race, in proportion, even as a penny candle adds to the light of the world.

God is Life, and in that Life there is no place for death. But as man lays down his weary body to rest at night, so God calls us to Himself for needed rest and training in the Higher Realms, thus preparing for another assignment on the planet, Earth.

Sleep has been called "the little sister of death" and we should be no more afraid of this transition than we are afraid to close our eyes knowing that we shall awake in the morning to a glad new day.

ANGELS OF LOVE

Angels of Love! How could an Angel be otherwise? The Angels are created by God to assist mankind. Of course, They serve according to law, but Love is the motivating power of Their every service. They are not acknowledged, loved or even known by those whom They serve, except by a very few.

We often ponder on the seemingly small progress we have made toward the perfection we seek, long for, and must become. It will give us much more food for thought, if we stop to consider that from the moment of physical birth, yes, even before, until the drawing of our last breath on Earth, and beyond, we are guarded and guided by Angels. Without Them we could have made little, if any progress.

Angels are created for a specific service in God's Plan. Some devote Their lives to assisting one Master, Whose energies are consecrated to a particular service. Such are the Legions of Angels of Power, under the Mighty Archangel Michael, the myriads of Healing Angels under the great Archangel Raphael, and Archangel Zadkiel's throngs of beautiful Violet Flame Angels, dedicated to the purification of mankind.

There are Angels of Birth, directed by the Queen of Heaven, Herself, Who assist every lifestream into Earth's school room and

Angels Who make the transition from Earth into a Higher Octave, safe and sure. Even there, Angels guide and guard us—providing rest and relaxation, purification and further instruction, showing us how to make things right, to attain the goal of all creation—the Ascension. When we are called before the Great Karmic Board to answer as to our "cause for being", to receive our assignment for further service and instruction, it is an Angel Who leads us, stands beside us, and sometimes even pleads our cause. When we have heard the Karmic Board's recommendation, again, an Angel takes us to our new home, place of study or service.

In this Earth life, we are continually guided and upheld by one or more Angelic Beings.

The following old story makes vividly real the fact of a personal guardian Angel:

Because of a father's serious illness, it became necessary for a young boy to go to the city and bring back a large sum of money. Two evil men, learning this fact, and knowing of the lonely walk through a woods, which the boy must take, consequently got off the same train, and taking a short cut, planned to intercept the boy at a spot which they knew his path must cross.

A few days before, the boy had discovered a nest of young owls. As he neared the tree where the owls were he stepped away from the path, hoping to see the babies. He did not mean to disobey the injunction to "Come straight home". However, just at that moment a baby owl flew from above his head to a nearby branch. He moved nearer and the owl flew again. Before he realized it he was going deeper and deeper into the woods, with just one thought in mind—to catch that owl. Finally, it flew to a low hanging branch which he knew he could reach. He stood on tiptoe, but just as his fingers touched the soft feathers, the owl flew again, and he lost his balance, falling, rolling, and sliding into a deep ravine.

He landed with a jolt, unhurt but for a few scratches. Now he remembered why it was so important for him to get home. It was a very relieved family who welcomed the disheveled boy who had caused them hours of anxiety.

Not one of them ever knew that a Guardian Angel had saved his life and the money he carried, by causing a baby owl to entice him from the path where evil awaited him.

There are many authentic stories of the loving care of a Guardian Angel and many times children have seen Them but seldom reveal these precious secrets to doubting adults.

Angels are always attracted by religious ceremonies. When the attitude of those officiating and participating in such service is receptive, they become channels through which the Angels flood Their forces of helpful service to all present. To such assistance must be credited much of the feeling of warmth, uplifted consciousness and peace, experienced during and following a religious service. What could be the feelings of the members of a congregation, could they behold the canopy of Angels bearing to God the essence of every prayer, whether in words, or music! It is not by mistake, or whim of the imagination, that an Angel tops the spire of many cathedrals and churches, for, indeed an Angel does guard each place of worship.

In our choice of an occupation, again we are given assistance —particularly if we know how to ask for it and can accept in Faith the help requested. Should our endeavors be scientific, an Angel under the great Ascended Master Hilarion (the Apostle Paul of Biblical fame) gladly aids in whatever way our consciousness can accept.

The Beloved Ascended Master Kuthumi directs His Angels of Illumination to assist teachers in their endeavors to secure and impart knowledge to the young minds in their charge. There are Angels of Music Who, not only assist those who make music their life work but Who are part of every service where music is sung or played. Many of the world's great composers have freely admitted that the transcendent melodies which bear their names were literally sung into their consciousness.

Every thing Divine is beautiful because it expresses a part of God. The Angels of Beauty and Art seek to embody this beauty and bring it into the world of form. "As Music Angels are the voice of God, these 'beauty' Angels are His Hand, with which He paints upon the canvas of the Universe the picture of the vision He has seen. The Angels of Color and Form would bring to man this growing beauty, this ever-increasing wonder, this infinite loveliness of God, that every man might share with Them the honor which is Theirs of acting as the Hand of the Supreme Artist".

An Angel of Healing stood at the foot of a bed in a New England hospital. The sick woman, looking up and seeing the beautiful vision became frightened, thinking her last hour had come and the Angel, Who, no doubt, had brought a precious gift, vanished. In every hospital or home where illness is present, the Healing Angels come, bearing Their gifts of healing, cheer and encouragement. Few, indeed are able to deliver these gifts because of the doubt, fear, and disbelief of the patients and those

who attend them.

A well known physician made this statement: "There are times when a physician has done all that is humanly possible—when death (so called) seems inevitable, that some Unseen Power seems to touch the patient. New life rushes in and he gets well. We do not understand why this happens to some patients and not to others, but no dedicated doctor reckons without God."

What transcendent work can be done when doctors, nurses, and patients alike, can cooperate with the Beloved Raphael and His Healing Angels! Then, will it be true, that

"Every heart sings as our Raphael brings
Healing in His great wings."

Have you ever gazed about you in loving wonderment, entranced by the myriad forms of clouds, trees, flowers, grasses, and stones! Each tiny flower and blade of grass, as well as each tree, rushing wave, and free, floating cloud has been ensouled by a Nature Spirit, another of God's Angels of Love. Wherever man is, these Nature Spirits abound, providing for his comfort and making beautiful his habitation.

Each home is lovingly guarded by an Angel Who tries to protect it from evil and distress. She brings Her gifts of love, harmony, and joy to enhance the family life. Children, particularly, are dear to the Guardian of the Home, into whose play She loves to join and whose prayers She hears, reverently carrying them to God.

In every department of our lives, Angels stand ready and eager to assist us. They long to give us of Their joy, wisdom, power, beauty, harmony and healing, but They need our invitation and love.

The Angel speaks: "Would you but throw open the doors of your hearts and minds to Us, doors which, in spite of the ancient teachings of your faiths, are fast locked against Us, We would fill your churches, mosques, and temples. To help you and Him We come, offering Ourselves to you. We, Who have not felt the cramping and deadening weight of Earth, honor you for your great pilgrimage so far from His Presence—from Whom you sprang—so deep into the dense material world. Now that your faces are turned homeward, He bids Us sing the welcoming song; He bids Us meet you on the way, leads you more swiftly along the Path of Return, back to His abode and the Dwelling Place of Light."

ILLUMINATION THROUGH LOVE

Strictly speaking, you know, Illumination is motivated by Love—in fact, it is Love in action. To enlighten means to inspire —to give light and life to—and Life, Light, and Love are all attributes of God, Himself. Where else could Light and Life come from but the Father-Mother God, Creator of the entire Universe? Can anyone, individually or collectively, consciously manufacture Life in some test tube or container? No! Life is a *gift* from the God-parents Who created all. In the Christian Bible, in the very first book, Genesis (in describing the creation of our Earth) did not God say, "Let there be Light . . . and there was *Light*" which came instantaneously, obedient to the God command. Then, too, does not this same Bible say, "God is Love"? These three are synonymous: Life, Light, Love.

Is not Light (motivated by Love) the activating principle of all Life? Do not chemists place certain chemical combinations in dark glass bottles so as to prevent strong light from changing the ingredients therein—either causing them to evaporate or lose their potency before the prospective user is ready for their benefits? Then Illumniation *does* bring more life into action through expanding Light and, in the last analysis, Love (activating Light) is the greatest expanding power in all Infinity!

Where does Illumination come from—to this planet or any other? That is, in our particular System to which the Earth belongs? From our physical Sun does it not? Why does Illumination come to the Earth—in perfect rhythm, dawning after dawning? Even when the *Sun, Itself,* is not visible to the sight of man. It is there behind the clouds, shining just as brightly as though those clouds were not there. Even the clouds cannot be permanent, for nothing but the perfection of PURE LIGHT, the life and love of God, Himself, can live forever!

This is one of the mightiest gifts of God's Love to His creation. No humanly-created distress is ever permanent—no matter how long it may seem to endure. Like the storm-clouds that hang low on a wintery day, we know that in a very short time, that storm effect must spend itself. Then the Sun, which finally penetrates those clouds and, even while dissolving them, silently, in masterful, loving power, often gives those very clouds a "silver lining." Love, again, bringing beauty and gladness and hope where unhappy shadows formerly appeared! Who but God could cause such miraculous mercies so to manifest?

Illumination (Light) is the very substance of God, Himself,

as we have said. Is one not much happier in the Light than in the darkness? If the night hours have been very dark and distressing to you — do not your spirits rise when dawn comes? Does not Illumination bring freedom *from fear and the terrors of the* unknown? Then it is a natural constructive impulse within all to LOVE THE LIGHT. Then, how important is Light—LIGHT—which most of mankind take for granted—quite as a matter of course. Yet upon that very Light depends the continuity of their own life and fulfillment of their plans and desires of attainment!

The "sun-worshipers" of the past were much wiser people than many have thought them to be—for they knew, loved and daily worshiped the SOURCE OF ALL—God-LIGHT from whence all comes and—one day—to which all must return! You see, the Law of Life is a circle, and not a single electron escapes obedience to that Law—all eventually returns to its Divine Source! There is no alternative!

Why does Earth's life-giving Light come from our Sun? Is that Light *compelled* so to bless our Planet and Her evolutions? No! Outside this physical octave of expression, there is no "force" or "compulsion"! All of God's Life in its true estate is allowed complete free-will and choice as to how His Life shall be used. Therefore, all Light's service in the Realms above the human octave is that of pure, selfless, Divine Love—giving of Itself constantly and thus expanding Its own Nature and that of the Father-Mother God—in Beauty and in Grace. Surely the evolutions of this Planet *have not earned* their daily gift of Love—Light from the Sun which gives to everything evolving here. The limitations and suffering of Earth's evolutions here today are proof that those evolutions have almost completely forgotten the real Source of their being and the beautiful Divine Plan, Life originally meant them to enjoy—all the beauty and perfection they knew and had with the Father "before the world was"!

Mankind enmasse would do well today to turn their faces upward toward that glorious Sun—which, by the way, is the blazing aura of their own God-parents, Who created this Planet in the beginning—and say, "Great Sun of God's Infinite Love and Mercy! We who live on this Earth, enjoying the gift of your very Own Life—WE LOVE YOU! LET THERE BE LIGHT now—not only that we may pursue our daily routine but LET THERE BE LIGHT IN OUR MINDS AND FEELINGS, TOO—that we may know the reason for our being. *Light our way now* to the

quick fulfillment of that Divine Plan, so that we may quickly return to the glory of Your Heart again—all things made right by Light—which is the outpouring and outpicturing of Your Love!"

Regardless of human appearances to the contrary these days, mankind are returning more quickly than our Gentle Reader may think—returning to the Divine Design for Living which Divine Love planned for Its creation from the beginning—that deep, deep, deep longing and soul-desire which lies buried within every beating heart—for that is "the mighty Sacred Fire which none can put out"—the REALITY of every self-conscious intelligence!

We are all familiar with the statement—"There is a tide in the affairs of men . . . "; but there is a tide in the affairs of God, also. The entire Cosmos is entering into such a tide at this time—a Cosmic onward "push" toward greater perfection of God-design and fulfillment. Our small Planet, Earth, being a part of that Cosmos, is compelled to arise and EMIT MORE LIGHT! It is the command of the Eternal and must be obeyed. This Light is emitted through the illumined consciousness of Her people. More and more mankind "looking up"—their attention drawn above by space travel, for instance, which is good because it draws mankind's attention UP—toward God—and away from the distresses of their own creation—all of which God never meant to be! All mankind's troubles come from looking down so—praise be to Almighty God Who, in His Infinite, Merciful Love—draws mankind's attention once again UP—into Light—into more Life—into God's Love which, after all, BRINGS HIS FULL ILLUMINATION!

Paraphrasing a well-known and well-loved hymn:

"Lead kindly Light — amid encircling gloom!
Lead Thou Earth on! The night is dark
And She's been FAR FROM HOME:
Light! LEAD EARTH ON . . . "

Right here—for just a moment—Gentle Reader, Think! Think what a tremendous anchorage of Almighty God-power each of has within his or her own beating heart! The Life which is there is the Life of God, Himself, and *God could never fail in anything!* Neither can you—if you will constantly live in the remembrance that "The Light of God NEVER Fails"—for your very own life IS THAT LIGHT! That quoted statement repeated three times in succession will bring you instantaneous assistance from the Brotherhood of Ascended Beings Who live but to set life free! Try it!

Oh, Love That Will Not Let Me Go

Oh, love that will not let me go;
To Thee, My very Life I owe,
Oh, hold me in Thine Arms of Light
May Angels guard me through the night;
In Peace beyond all care.

And as the Sunrise and the Dawn;
Come peeping o'er Earth and beyond;
Will see my Spirit rise to be,
With Truth sealed for Eternity;
In Purity from Thee.

So now that "I Am" One with Thee;
Still let me serve to set Life free;
Thy Way Divine to others show,
To see this Planet here below,
As it was meant to be.

A. B. N.

It was LOVE which spurred Moses on to draw the reluctant people of Israel away from the flesh-pots of Egypt in an endeavor to find their "Promised Land".

In Galilee, it was LOVE that enabled a young man (with a body of such perfection as has not been known since on the Earth-plane) to willingly lay that body upon a cross, submitting to the Crucifixion in order to prove that the Resurrection *and* the conscious Ascension is for all.

It is LOVE which sends certain lifestreams to the leper colony joyously willing to give whatever assistance they can to the afflicted there. It is LOVE which makes the men of research work so persistantly—often at considerable self-sacrifice—to bring forth those scientific findings which have proven to be of such assistance to the race. It is LOVE, too, which brings the comfort and convenience of your inventions into the use of man in his everyday life.

WITHOUT LOVE, NOTHING IS PERMANENTLY ACCOMPLISHED; without it the clearest vision remains but a cloudy vapor!
